5 Customer Service Guarantee (CSG) Waiver

- (a) The Telecommunications (Consumer Protection and Service Standards) Act 1999 and the Telecommunications (Customer Service Guarantee) Standard 2011 (**CSG Standard**) require service providers to guarantee that customers will get minimum levels of service for their standard telephone services (including VoIP) and enhanced call handling features.
- (b) The CSG sets out committed timeframes that apply to connecting a standard telephone service, fixing faults and attending appointments with you. The CSG does not apply if you agree to waive your CSG rights.
- (c) Because our Residential Voice Services can only be used with a Tangerine Internet Service, our Residential Voice Services are supplied on the basis that you agree to waive your CSG rights. We

ask you to do this because we cannot guarantee the restoration time on your Voice service if a fault occurs with the internet or the underlying physical connection that enables your Tangerine Internet Service.

- (d) You are not required to waive your CSG rights. However, if you don't agree to this, we won't be able to supply a Residential Voice Service to you.
- (e) By agreeing to this CSG waiver, you agree to waive your rights under the CSG Standard, including your rights to make a claim against us for financial compensation under the CSG in connection with your residential Voice service. These rights include:

 - (iv) maximum timeframes for appointments to connect or repair a service, and the right to receive compensation if these are not met.
- (f) This waiver commences when you agree to it. However, you can withdraw your agreement at any time within 5 working days after providing your agreement, in which case we reserve the right to cancel your Residential Voice Service.
- (g) Please note that waiving your CSG rights does not affect our commitment to provide you with quality service and support. If you experience any issues with your Residential Voice Service, please contact us via any of the means set out on our website for assistance.

You acknowledge and agree that we have an obligation under the Telecommunications Act to provide the Integrated Public Number Database (IPND) Manager with accurate address information in connection with your phone number in order

to maintain the IPND database. It is your responsibility to notify us as soon as possible if there is any change to the service address registered on your account.

- (j) You agree that with respect to any number we issue to you in connection with a Service, if a person (**Requesting Person**) requests a transfer of title or change of ownership of that number in circumstances where we are reasonably satisfied that the Requesting Person is affected by domestic or family violence, then:
 - (i) we may transfer title in the relevant number in accordance with the Requesting Person's request; and
 - (ii) you appoint us as your agent to take any steps reasonably required to give effect to that transfer.

7 Local Number Portability

- (a) We provide Local Number Portability (LNP) as an option to enable you to change your voice service provider.
- (b) LNP lets you keep your existing fixed phone number when you transfer the voice service linked to that number from one voice service provider to another. This process is known as porting. You can only port active fixed phone numbers.
- (c) There are no Charges for you to port a fixed phone number to or away from Tangerine. Number porting will only be performed by Tangerine during our normal business hours.
- (d) If you wish to port an existing fixed phone number away from another voice service provider to us:
 - (i) **IMPORTANT:** if you are intending to use your ported number with an FTTB, FTTN or FTTC nbn connection, your existing phone number will be lost when your new internet service is activated with us. As such, if you want to keep your existing number, you must complete the port in to our Residential Voice Service before your new Tangerine Internet Service is activated with us;
 - (ii) if requested, we can provide you with a temporary phone number for use with your Residential Voice Service until your port is completed;
 - (iii) you must not cancel the service you have with the other voice service provider before you port the phone number. Once your fixed phone number has been successfully ported, please confirm with your existing service provider that they have cancelled your old service; and
 - (iv) some ports may be delayed or fail altogether due to special call features that are attached to the porting phone number. If you want to port your existing phone number to Tangerine, please ensure you cancel or remove all special call features attached to your voice service with your existing service provider before you request for it to be ported to Tangerine;
 - (v) you may not be able to make or receive calls via your existing voice service for a short period during the last day of the porting process; and
 - (vi) we will notify you if your port is rejected.
- (e) If you wish to port an existing fixed phone number away from Tangerine to another service provider:
 - (i) we will use our reasonable efforts to port your number;
 - (ii) you must not cancel your Tangerine Residential Voice Service before you port the fixed phone number. The service provider to which you have ported the phone number will inform us once the port has been successfully completed and we will then cancel your Tangerine Residential Voice Service;
 - (iii) you may not be able to make or receive calls via your existing Tangerine Residential Voice Service for a short period during the last day of the porting process; and
 - (iv) we will notify you if your port request has not been successfully confirmed.
- (f) The porting process typically takes between 5-15 days but may take longer for a range of technical reasons outside of our control. We will work with you to ensure your port is completed in the most efficient manner possible in your circumstances.
